

DHL Parcel and POST Luxembourg partner in parcel shipping

- **Improved cross-border parcel service thanks to Parcel Connect**
- **Cooperation strengthens cross-border e-commerce and extends service offering**

Bonn/Luxembourg, June 1, 2018: DHL Parcel and POST Luxembourg have signed a strategic partnership on cross-border parcel shipping. POST Luxembourg will become part of the DHL Parcel Europe parcel network, which offers a standardized parcel service throughout Europe, with new functionalities for parcel deliveries and returns. Parcel Connect is the name of this service, which is being offered by DHL Parcel in cooperation with other parcel service providers in Europe and orchestrated by DHL Parcel. In June, POST Luxembourg will become the official partner for Parcel Connect in Luxembourg.

Initially, the services offered will only cover delivery of parcels from Europe to Luxembourg (import). The cooperation with POST Luxembourg will allow the DHL Parcel Europe network to benefit from improved transit times to Luxembourg and to gain access to the country's largest network of service points and parcel stations. E-commerce customers can take advantage of the following offers:

- Parcel notification by e-mail/SMS
- Option of changing the delivery date
- Collection service for returns and
- Simplified returns without additional costs for recipients

In a second phase, POST Luxembourg will also offer export services from Luxembourg (Parcel Connect Export).

"With POST Luxembourg as a new strategic partner, we are able to offer a service for Luxembourg that is even better tailored to the needs of B2C e-commerce customers," says Achim Dünwald, CEO of DHL Parcel. "This extends our proven 'Parcel Union' partnership model to ten partners in 14 countries, in its third year of existence. In other markets too, we are continuing to work on gaining 'local heroes' as partners and on expanding our harmonized

Parcel Connect service throughout Europe.”

As Hjoerdis Stahl, Deputy Managing Director of POST Luxembourg and Director of POST Courier explains: “On average, around 9,000 parcels from Europe arrive at our national sorting center. Thanks to Parcel Connect, we are able to offer our customers an even better service and hope to further increase this volume,” she continues. “The cooperation with DHL Parcel, and as a member of the DHL Parcel Europe network, also emphasizes the positioning of POST Luxembourg in the logistics area, in which we see good opportunities for growth.”

Parcel Connect was introduced by Deutsche Post DHL in 2014 to significantly simplify, extend, and accelerate the shipping of parcels in Europe. Today, 26 countries belong to the DHL Parcel Europe network.
