

DHL opens state-of-the-art logistics hub at the Vienna Airport

- **DHL campus at the Vienna Airport to serve as key strategic hub for Austria and Eastern Europe**
- **Bundling overland, air and ocean freight at a single location improves service and increases freight volume turnover rate**
- **Some 250 employees to consolidate and dispatch freight at hub**

Bonn – May 24, 2019: Yesterday, DHL Global Forwarding, Deutsche Post DHL Group's air and ocean freight specialist, together with DHL Freight, one of Europe's leading road freight providers, celebrated the opening of DHL's new Vienna Airport campus in the county of Fischamend. The state-of-the-art logistics hub will combine the strengths of the three different transport modes – overland, air and ocean freight – for optimal handling and transport of goods in and out of Austria and Eastern Europe. The new DHL campus at the Vienna Airport adds another important logistics hub and gateway to the DHL Global Forwarding, Freight worldwide network. Prominent guests from government and the private sector took part in the event, including Johanna Mikl-Leitner, Governor of the state of Lower Austria; Thomas Ram, Mayor of Fischamend; and Günther Ofner, CEO of the Vienna Airport (Flughafen Wien AG).

“With our new logistics hub at the Vienna Airport, we are leveraging the best synergies between DHL Global Forwarding and DHL Freight,” said Tim Scharwath, CEO Global Forwarding, Freight. “The new DHL campus at the Vienna Airport adds another important logistics hub to our global transportation network, which we use to service over 220 countries and territories.”

Until now, DHL Global Forwarding and DHL Freight conducted business from three separate locations around Vienna; these will now be consolidated at the new campus. Along with some 3,500m² of office space, DHL's new Vienna Airport campus includes two freight terminals, each measuring some 12,000m² and consisting of roughly 5,000m² for DHL Global Forwarding warehousing and handling, as well as 7,000m² for DHL Freight. In order to meet the steadily growing demand for logistics and transport services in the life sciences and healthcare sector, DHL has also created larger capacities for temperature-controlled goods. With over 1,200m², DHL Global Forwarding has doubled its space in this area.

“Our longer-term goal is to be the market and quality leader in European overland transport, which is why we continue to invest in the expansion and further development of our transport and groupage network,” explains Uwe Brinks, CEO DHL Freight. “We already have one of

Europe's densest terminal networks. The new DHL campus at the Vienna Airport is another important step in this direction.”

Design and construction of the new DHL campus focused on sustainable building practices and the use of renewable energy in line with Deutsche Post DHL Group's target to achieve zero-emission logistics by the year 2050. In addition, the new logistics hub also meets the highest TAPA security standards (TAPA A).

50 Years DHL

In 2019 DHL is celebrating 50 years since the company's founding by three entrepreneurs in San Francisco in 1969. DHL began as a disruptor to the traditional delivery industry, circumventing bureaucracy with an innovative new service to deliver documents by air overnight. Since then, DHL has grown into a globe-spanning family of DHL companies with about 380,000 employees in over 220 countries and territories that covers the entire spectrum of logistics and supply chain services. DHL's customer-centricity and can-do culture have fueled five decades of innovation – from the DHL 1000, one of the first word processing computers in the world, to using the purpose built StreetScooter, an environmentally friendly delivery vehicle powered by an electric drive and developed by Deutsche Post DHL Group. With the Mission 2050 commitment to reach zero group-wide emissions by 2050, DHL is continuing to be a trailblazer in the logistics industry.

DHL – The logistics company for the world

DHL is the leading global brand in the logistics industry. Our DHL family of divisions offer an unrivalled portfolio of logistics services ranging from national and international parcel delivery, e-commerce shipping and fulfillment solutions, international express, road, air and ocean transport to industrial supply chain management. With about 380,000 employees in more than 220 countries and territories worldwide, DHL connects people and businesses securely and reliably, enabling global trade flows. With specialized solutions for growth markets and industries including technology, life sciences and healthcare, energy, automotive and retail, a proven commitment to corporate responsibility and an unrivalled presence in developing markets, DHL is decisively positioned as “The logistics company for the world”.

DHL is part of Deutsche Post DHL Group. The Group generated revenues of more than 61 billion euros in 2018.
