

## Dr. Antje Huber appointed new Saloodo! CEO

Press Release

February 2021

- Dr. Huber has been a member of the Saloodo! Management Board since 2019
- Saloodo! plans to further expand its international presence

Dr. Antje Huber took over the position of Chief Executive Officer at the digital freight platform Saloodo! on February 1, 2021. She succeeds Thomas Grunau, who has successfully managed the company in this capacity since 2018. In his primary role as SVP Global Business Strategy & Digitalization and member of the divisional Board, Thomas Grunau is responsible for driving business strategy at DHL Global Forwarding. While in the future he has to dedicate his focus more on these strategic tasks, including measures to drive digitalization within DHL Global Forwarding's air and ocean freight business, he handed over his additional responsibility as CEO for Saloodo! to a proven expert. With a degree in Business Administration and longstanding experience in logistics management, Antje Huber is ideally placed to build on Grunau's success and further develop Saloodo! into an international player.

"I'm delighted that we've been able to win Antje Huber as CEO for Saloodo! and secure her proven expertise in international expansion strategies and digital technology projects. Through her work on the Management Board she is already up to speed on the company and its processes. This will ensure a smooth transition as she focuses efforts to establish Saloodo!'s presence around the world," says CEO DHL Freight Uwe Brinks, who is responsible for Saloodo! within Deutsche Post DHL Group.

Dr. Antje Huber has been a member of the Saloodo! Management Board since the beginning of 2019 and as such has played a key role not only in the successful establishment of the platform in Europe but also its global rollout at the end of 2020. Huber began her career at Deutsche Post DHL Group in 2003 and has since held several positions in Corporate Development, DHL Parcel, and Innovation and Operations Post & Parcel Germany. In 2017 she

joined DHL Freight as SVP Strategy, Marketing & Chief of Staff and will continue in this role in addition to her responsibilities as Saloodo! CEO.

“I would like to express my thanks for the confidence placed in me with this new appointment and look forward to working together with Deutsche Post DHL Group, especially DHL Freight, the Management Board – and most of all with the great team at Saloodo!, says Dr. Huber. “Over the past two years, I have been able to observe the incredible commitment and enthusiasm our colleagues bring to their work. Together, we will build on what has already been achieved and consolidate Saloodo!’s presence around the world.”

**About Saloodo!**

Saloodo! combines the best of two worlds: Founded in 2016 by Deutsche Post DHL Group, the digital road freight platform combines the logistics know-how and infrastructure of a global player with the flexibility and digital expertise of a start-up. Saloodo! simplifies the daily processes of shippers and transport companies by providing a powerful end-to-end digital solution for ordering and processing shipments. This maximises the transparency and efficiency of the entire transport process.

With the freedom of choice of a neutral online marketplace and the security and convenience of a digital forwarder, Saloodo! is the answer to the ongoing digitalisation in the highly fragmented transport market.
